Professional Summary

Computer Science Engineering undergraduate with strong foundations in programming, data structures, and web development. Skilled in Python, Java, and C++ with hands-on experience building full-stack applications. Passionate about Artificial Intelligence and data-driven solutions to solve real-world problems. Seeking opportunities to contribute to innovative software development and analytics projects.

Education

Bachelor of Engineering in Computer Science and Engineering

Cambridge Institute of Technology – North Campus

GPA: 8.2 / 10

Expected Mar 2027

Technical Skills

- **Programming Languages:** Python, Java.
- **Web Development:** HTML, CSS, Node.js.
- **Database:** MySQL
- **Concepts:** Data Structures & Algorithms, Object-Oriented Programming
- **Tools:** Git, GitHub

Projects

Skill-Based Job Portal

- Developed a full-stack web application connecting job seekers with opportunities based on skill profiles.
- Implemented secure authentication, resume upload, and skill-based job recommendations.
- Built recruiter and admin dashboards to streamline job posting and candidate management.
- Technologies used: Node.js, Express.js, MongoDB, HTML, CSS.

Achievements

- Demonstrated strong problem-solving ability and continuous learning mindset through coding practice.
