SIDDHARTHA PS

Bengaluru, India | +91 9019811231 | siddharthaps60@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with strong foundations in programming, data structures, and web development. Skilled in Python, JavaScript, and TypeScript, with hands-on experience building full-stack applications using React, Node.js, and Supabase. Passionate about data-driven solutions and building scalable, real-world applications. Seeking opportunities to contribute to innovative software development and engineering teams.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript
- **Web Development:** Node.js, React, HTML, CSS
- **Database:** SQL
- **Concepts:** Data Structures & Algorithms, Object-Oriented Programming
- **Tools:** Git, GitHub
- **Soft Skills:** Communication, Problem-Solving, Teamwork

EXPERIENCE

Software Engineering Intern (Ongoing) July 2026 – Present

The Entrepreneurship Network (TEN)

- Developed full-stack features for internal web applications using Node.js, Express.js, and MongoDB, working across both API and UI layers
- Collaborated within an Agile/Scrum team through sprint planning, standups, and retrospectives to deliver features on schedule
- Used Git and GitHub for version control and collaborative code review across the team

PROJECTS

Skill-Based Job Portal (SkillMatch) GitHub

Tech Stack: React, TypeScript, Vite, Tailwind CSS, Supabase (PostgreSQL, Auth, Row-Level Security)

- Built a full-stack, skill-based job matching platform connecting job seekers with employers, using React and TypeScript for the frontend and Supabase for authentication, database, and backend logic
- Designed a relational schema in PostgreSQL (profiles, skills, jobs, applications, assessments) with Supabase Row-Level Security policies to enforce secure, role-based access for job seekers and employers
- Implemented role-based dashboards with skill verification and proficiency-based match scoring — job seekers manage profiles and applications, while employers post jobs and review candidates matched to job requirements

CERTIFICATIONS

- JPMorgan Chase & Co. Software Engineering Job Simulation — Forage, March 2026
- Deloitte Data Analytics Job Simulation — Forage, February 2026
- Yuva AI for All — NASSCOM Future Skills Prime, February 2026
- IEEE Student Development Program — IEEE

ACHIEVEMENTS

- Demonstrated strong problem-solving ability and a continuous learning mindset through consistent coding practice

EDUCATION

Bachelor of Engineering in Computer Science and Engineering Expected March 2027

Cambridge Institute of Technology – North Campus | GPA: 8.2 / 10
